

PERCEPTION

Electronic Version

The Perception Magazine was commenced with the Spring 2009 edition as a quarterly magazine for teenagers and young people by its first editor, Mr. John Broome. Sadly Mr. Broome completed just 4 years as editor, though he managed to finish the Spring 2013 issue before he passed away in February 2013. Mr Trevor Scott then took over the editorship until retiring at the end of 2022, when Mr Timothy Parish became editor. This electronic version contains just one index of all articles published since the magazine began and all index entries are cross-linked so that clicking on an entry will open the correct magazine at the opening page of the article. Click [here](#) to go to the index.

All files are in Adobe Acrobat/Reader format and are searchable within Adobe Reader. To continue, choose one of the periods below by clicking on the appropriate link.

Alternatively [click here](#) for more detailed notes on using Adobe Reader to view and search the Perception magazine.
